

# Measurement Systems

## WLT-400HP

### General Specifications:

- Capacity: Up to and including 400 class meters, 0-38 psi test pressure
  - Includes AL-425, AC-630 & AC-800 with 25# MAOP cases
- Thermostatically controlled water heater
- Circulating pump
- Water filter
- Rotating meter platform to view meter while standing in front of the tester
- Capability of clamping/sealing meter without applying force down on the meter case
- Circular tank optically magnifies the meter for easy leak location detection
- Stuffing box leak test valve to cycle meter at testing pressure

### Requirements:

- Power: 120vac at 30 amps
- Compressed Air Supply: 90 psi at 5 CFM
- Water Drain/Supply: standard hose connection

**Dimensions: (83" Height x 23" Width x 37" Depth)**
